## Sikaflex 11FC:

This product is a fast curing one part polyurethane sealant. Sikaflex 11FC adhesive provides a permanent elasticity. Sika 11FC has many industrial and agricultural applications. Available in 310ml Cartridges and 600ml sausages. Supplied in white, Grey and black colours.

## Sikaflex 221:

This 1-C Polyurethane sealant cures upon exposure to atmospheric humidity where it forms a strong and durable elastomer. Sika flex 221 adheres well to many substrates and is the correct product for jobs that require permanent elastic seals. Available in 310ml Cartridges and 600ml sausages. Supplied in white, Grey and black colours.

## Sika Contact – 4600:

This contact adhesive can be applied both sprayed on or rolled on. The adhesive of sika contact 4600 offers a very good bond to a variety of surfaces including wood, rubber and metal. Application involves applying contact adhesive to both surfaces, wait until they are both touch dry, then apply even pressure all over. Product is available in 500ml, 1 Litre, 4 Litre and 20 Litres.

## Sika Aktivator / Cleaner 205:

This product is an alcoholic solution designed to be used before applying a sika adhesive to your material you intend to bond. Sika 205 is designed to clean and activate bonding surfaces prior to beginning your adhesion job.

**Sika Primer – 206 (Glass & Paint):**

This product is a black in colour, moisture curing liquid designed to be used before applying a sika adhesive to your material you intend to bond.

**Applicator Guns:**

Good quality sika branded applicator guns. Style available for cartridges and sausages.

**3M VHB – 4941 Series:**

This is a construction grade acrylic double sided tape. This double sided tape features remarkable strength in both indoor and outdoor applications. The 3M VHB 4941 tape can be used on many substrates including glass, metal, many plastics, painted or sealed porous surfaces such as woods or concrete.

**3M – RP45 Series:**

This is a construction grade acrylic double sided tape. 3M has developed this RP series with a paper liner for die cutting solutions. This double sided tape features remarkable strength in both indoor and outdoor applications. The 3M RP45 tape can be used on many substrates including glass, metal, many plastics, composites, sealed woods and painted surfaces.

**Scotch-Brite Blending Hand Pad 7446:**

Increase the adhesion of your VHB tapes by 300% with this Scotch-Brite Blending Hand Pad 7446. These abrasive pads can be used by hand, hand pad block or a line sander.

Color: Grey Size 6" x 9"
